

JiBiMED[®]

**Autoclave 50 Litros
Vertical Digital
Modelo: LS-50HD**

Use

The vertical pressure steam sterilizers are assembled with heating system, microcomputer controlled system, over heat and over pressure protection system, which are reliable for the sterilizing effects, convenient of operation and energy conservation. They are ideal equipments for clinics, scientific research institutes and other organizations to sterilizer surgical instruments, fabrics, glasses, culture media etc.

Characteristics

- Fully stainless steel structure.
- Auto discharge the cool air, and steam discharge automatically after sterilization.
- Automatically shut off with beep reminding after sterilization.
- Hand wheel type of quick-open door structure.
- Over temperature & over pressure auto-protection.
- Easy to operate, safe and reliable.
- Door safety lock system.
- With two stainless steel sterilizing baskets.
- LCD display of working status, touch type key.
- Safe protection of water lacking.
- Optional drying system.
- Optional printer.

MODEL		LS-50HD		
Technical Data				
Chamber volume		50L φ340×550mm		
Working pressure	0.22Mpa			
Working temperature	134℃			
Max. working pressure	0.23Mpa			
Heat average	≤±1℃			
Timer range	0-99min or 0-99hour59min			
Temperature adjust range	105-134℃			
Power		2X1.5KW/AC220V 50HZ		
Overall dimension(mm)		520×500×1150		
Transport dimension(wooden case) (mm)		610×610×1290		
G.W/ N.W(wooden case)		99Kg/74Kg
